

Jenny Wenn

Social, Emotional and Mental Health (SEMH)

My Job

I work directly in schools to support staff, children/young people, and their parents/carers when there is a SEMH need.

Following my visits I write a report. There is a section within the report that offers recommendations and strategies to support the young person in school and at home.

I offer SEMH advice to staff during core consultation meetings in a range of schools across Norfolk.

I deliver training in schools on a range of SEMH topics.

What I might do in school

- Give advice and support directly to staff.
- Carry out assessments and consultations with children and young people with SEMH needs.
- 1:1 Interventions with pupils
- Coffee mornings for parents/carers
- Advice on whole school approaches

My Areas of Interest...
